First Consulting, Inc.

Embedded Medical Device Software Verification & Validation

IEC 62304 · ISO 14971 · IEC 60601-1 · 21 CFR Part 820

The Execution Partner That Makes You Look Good to Your Clients

You own the regulatory strategy and the client relationship. First Consulting, Inc. handles software V&V execution — reliably, on your timeline, without stepping on your role.

20 Years	15+
delivering software V&V execution	Class I products supported

TRUSTED BY: Ortho Clinical Diagnostics · Quaero Life Science · Tecan Group

WHY CONSULTANTS PARTNER WITH US

- We don't compete for the regulatory strategy relationship — that's yours. We're the execution arm.
- We flex to however you want to structure the engagement: co-branded, white-label, or a direct introduction — your call.
- One reliable partner across your whole client base, whether they're a startup or an established manufacturer.
- We understand the submission process from your side of the table, not just the engineering side — less hand-holding, fewer surprises.
- Predictability is the product: clear communication, dates that hold, and no surprises that land back on you.

HOW WE WORK WITH YOU

1. **Introduction call —** a short conversation to understand your client base and how you like engagements structured.
2. **Flexible setup —** co-branded, white-label, or a direct introduction — whatever fits your relationship with the client.
3. **Execute —** V&V execution delivered to your client's spec, with communication on your terms throughout.
4. **Stay in our lane —** strategy and the client relationship stay with you; we hand back a clean, reliable result every time.

PROOF STATEMENT

"First Consulting, Inc. has delivered software V&V execution for 15+ Class I medical device products, including engagements with Ortho Clinical Diagnostics, Quaero Life Science, and Tecan Group, working smoothly alongside internal teams and external partners alike."
